FRAMES: Our distinctive patio furniture features heavy gauge aluminum alloy extrusions with uniquely supported inner walls. Many frames have added solid cast aluminum accents providing both beauty and stability. All joints are Heliarc hand welded with a full circumference and hand-ground to ensure long lasting strength.

FINISH: Every frame is finished with a multistage deluxe powder coat process giving unsurpassed long lasting quality and resistance to corrosion, abrasion and blistering. Some frames have the additional feature of hand applied antiquing.

STRAPS: Only 100% virgin vinyl straps are used with added mildew and ultraviolet inhibitors to maintain color, comfort and excellent elasticity. Each strap is double wrapped around the frame and secured in place.

CUSHIONS: We use only high-grade 100% polyester wrapped around a layer of polyurethane foam. The polyester fills the cushions ensuring comfort and the foam helps maintain the shape and fullness. Our top quality fabrics are specially designed and woven to resist staining and wear.

SLINGS: Our sling fabrics are made from the strongest PVC coated polyester yarns woven and heat sealed to retain their shape for many years. Some fabrics are a blend of PVC coated and Acrylic yarns, offering a softer touch.

RESIN WICKER: Made of virgin hi-density polypropylene, our Resin Wicker will resist fading, shrinking, discoloration and the most intense UV rays. The Resin Wicker is hand woven by skilled craftsman onto aluminum frames and remains cool to the touch even in the hot sun.

TABLETOPS: All glass tabletops are made of tempered glass which is five times stronger than ordinary glass. We also offer cast aluminum tabletops as well as Ceramic and Stone tabletops.
